NOTE: The following information constitutes an approximate retirement computation. FINAL COMPUTATIONS ARE MADE BY THE U. S. CIVIL SERVICE COMMISSION. Computation is based on actual service assuming that retirement deductions have been taken from your salary for the entire period of employment and that you have redeposited any refund you may have received. For any period of service for which deductions were not taken and for which you have not made deposit, your annuity will be reduced by 10% of the deposit due. See the reverse side for additional information which might prove helpful to you.

SEPARATION QUALIFICATION RECORD

SAVE THIS FORM. IT WILL NOT BE REPLACED IF LOST

This record of job assignments and special training received in the Army is furnished to the soldier when he leaves the service. In its preparation, information is taken from available Army records and supplemented by personal interview. The information about civilian education and work experience is based on the individual's own statements. The veteran may present this document to former employers, prospective employers, representatives of schools or colleges, or use it in any other way that may prove beneficial to him.

In reply to your inquiry we are furnishing a statement of your past Federal service as shown by official records now on file in this Bureau.

05/20/42	06/16/42				
07/16/42	03/11/43 ✓				

✓ It is quite possible that your employing agency's records already contain verified records of any additional service you have. Your agency maintains your individual retirement record, Standard Form 2806, and also has your official personnel folder which usually contains records prepared by agencies in which you were formerly employed.

We will verify all service whenever the records are needed to settle a claim filed with us. We will verify service before a claim is filed if your retirement will occur within two years and your agency requests us to obtain records which it does not have.

Meanwhile, if records of claimed service are needed for purposes other than retirement, either you or your agency may request verification directly from the agency which has custody of the records. Most records of past service are now in the custody of the National Personnel Records Center (Civilian Personnel Records), General Services Administration, 111 Winnebago Street, St. Louis, Missouri 63118.

Any records obtained by direct verification should be filed in your official personnel folder so that they will be readily available if and when they are needed for retirement purposes.

1. This is to certify that the addressee audited a 20-hour training course covering the IMPAC (Information for Management Planning, Analysis and Coordination) system and the Inquiry and Reporting System which is used to prepare queries for the selection and manipulation of data contained in IMPAC files. The course was offered by the Statistical Analysis and Surveys Section, SAB, DRG in the period December 7-18, 1970.

2. IMPAC is a computer-based information system on the extramural grant programs of the NIH and other PHS Agencies. It contains data on research grants, fellowships, training grants, research career awards, research contracts, and other programs. The Inquiry and Reporting System (IRS) is the primary instrument for extracting and reporting IMPAC data in connection with program analysis and evaluation and other management functions. The generalized computer programs which comprise this system provide a capability for data selection, look-up table and auxiliary file chaining, logical manipulation, alteration, computation, summarization, and variable formatting of reports.

EMPLOYEE'S NOTICE OF INJURY OR OCCUPATIONAL DISEASE
(Under the Federal Employees' Compensation Act)

INSTRUCTIONS

This form should be completed by the injured employee or someone on his behalf whenever an injury is sustained in the performance of duty and given to his immediate superior within 48 hours. It should be placed in the employee's official personnel file unless the injury causes disability for work beyond the day when it occurred; is likely to result in prolonged treatment or permanent disability; or in a charge for medical or related expenses when it should be forwarded to this Bureau with Form CA-2, Official Superior's Report of Injury. This form is also completed whenever an employee believes he suffers from a disease related to his employment. (See Sections 1.2, 1.3, 2.2 and 2.3 of the Bureau's Regulations.)

The immediate superior should also complete the reverse side of this form.

1. NAME OF INJURED EMPLOYEE (Last, first, middle) Rivera, Jose A.		2. DATE OF THIS NOTICE (Mo., day, yr.) 21 January 1965	
3. PLACE OF EMPLOYMENT (Name and location of office or establishment) National Institutes of Health, NINDB		4. DATE OF INJURY (Mo., day, yr.) September 2, 1964	
5. OCCUPATION Scientist Administrator		6. HOUR OF INJURY (a.m. or p.m.) P.M.	
7. PLACE OR LOCATION WHERE INJURY OCCURRED Front door, Westwood building, Bethesda			
8. CAUSE OF INJURY (Describe how and why injury occurred) Trying to hold door open as I was leaving the building, it swung back upon me and trying to keep my balance and the door open, I twisted my leg. This large glass door is heavy and has a strong spring tension to keep it closed. It was hard to hold it open especially as I was carrying two large books and a briefcase.			
9. NATURE OF INJURY (Name part of body affected—fractured left leg, bruised right thumb, etc.) I felt a deep dull pain in my right leg and knee, but I did not consider this to be serious at the time.			
10. NAMES OF WITNESSES TO INJURY I cannot name any witnesses because people were leaving the building in a hurry and I did not know anyone by name.			
11. IF THIS NOTICE WAS NOT GIVEN WITHIN 48 HOURS AFTER THE INJURY, EXPLAIN REASON FOR DELAY. IF EARLIER NOTICE WAS GIVEN BY WRITING, STATE WHEN AND TO WHOM. On my return from an NIH official trip, and because my knee began to hurt, I reported to Mrs. Savannah, the Nurse on duty at the First Aid Room, Westwood building. She made an appointment at the Employee's Outpatient Clinic, building 10 where Dr. White examined and treated me.			
I certify that the injury described above was sustained in the performance of my duties as an employee of the U.S. Government and that it was not caused by my willful misconduct, intention to bring about the injury or death of myself, or another, nor by my intoxication. I hereby make claim for compensation and medical treatment to which I may be entitled by reason of this injury.		12. SIGNATURE

Public Health Service
(Department or agency) (Bureau or division) (Place of employment)

I, Jose A. Rivera, do solemnly swear (or affirm) that—

A. OATH OF OFFICE

I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely without any mental reservation or purpose of evasion; that I will well and faithfully discharge the duties of the office on which I am about to enter, **SO HELP ME GOD.**

B. AFFIDAVIT AS TO SUBVERSIVE ACTIVITY AND AFFILIATION

I am not a Communist or Fascist. I do not advocate nor am I knowingly a member of any organization that advocates the overthrow of the constitutional form of the Government of the United States, or which seeks by force or violence to deny other persons their rights under the Constitution of the United States. I do further swear (or affirm) that I will not so advocate, nor will I knowingly become a member of such organization during the period that I am an employee of the Federal Government or any agency thereof.

C. AFFIDAVIT AS TO STRIKING AGAINST THE FEDERAL GOVERNMENT

I am not participating in any strike against the Government of the United States or any agency thereof, and I will not so participate while an employee of the Government of the United States or any agency thereof. I do not and will not assert the right to strike against the Government of the United States or any agency thereof while an employee of the Government of the United States or any agency thereof. I do further swear (or affirm) that I am not knowingly a member of an organization of Government employees that asserts the right to strike against the Government of the United States or any agency thereof and I will not, while an employee of the Government of the United States or any agency thereof, knowingly become a member of such an organization.

D. AFFIDAVIT AS TO PURCHASE AND SALE OF OFFICE

I have not, nor has anyone acting in my behalf, given, transferred, promised or paid any consideration for or in expectation or hope of receiving assistance in securing such appointment.

E. AFFIDAVIT AS TO DECLARATION OF APPOINTEE

The answers given in the Declaration of Appointee on the reverse of this form are true and correct.

Dear Colonel Rivera:

In accordance with your request, DD Form 108, Application for Retired Pay Benefits, is inclosed.

It is requested that you complete the form in accordance with the instructions on the reverse side. Army regulations provide, in pertinent part, that statements of service are not necessary to document these applications and will not be requested for that purpose. The primary function of the DD Form 108 is to alert this office to possible service in another branch of the Armed Forces. The form should be completed to the best of your ability from the information available to you. Final computation of service and total points earned will be made from your official military records.

In Item 3, enter date of earliest eligibility or any later date, as you desire. Generally, the earliest eligibility date is the first of the month following the month age 60 is reached, regardless when the application is filed. If any question arises concerning the date you elected, you will be contacted for verification.

Your application should be submitted to this office approximately 60 days prior to your 60th birthday. If you have already attained age 60 or will reach that age within 60 days, request you forward your application at your earliest convenience.

You will be notified of final determination of your case following receipt of your application.

Sincerely yours,

D. D. SPAHR

1. Paragraph 2, letter, AIXMI-ACRB, Headquarters XXI US Army Corps, 22 October 1962, subject: Promotion of USAR Unit and Non-Unit Lieutenant Colonels and Certain Majors indicates that a Selection Board is tentatively scheduled to convene at Headquarters Department of the Army during February 1963 to consider officers specified in paragraph 18, AR 135-155.

2. Your personnel records reveal that you fall within the zone of consideration for selection to colonel (10 years time-in-grade and 19 years total commissioned service computed through 31 May 1964).

3. In compliance with paragraph 12e, AR 135-155 you are hereby notified that an officer eligible for consideration for promotion may write a letter inviting attention to any matter of records in the Armed Forces concerning himself that he feels is important in the consideration of his record. Such communication must not contain criticism, nor reflect upon the character, conduct, or motives of any officer. Copies of documents submitted with such letters will be either photostatic or certified true copies. Communications and documents submitted will not be returned to you. Any such communication you care to submit should be forwarded to Office of Personnel Operations, ATTN: RCAP-PH, Department of the Army, Washington 25, D.C., making reference to DA Message 319302, RCAP, dated 12 October 1962.

4. Letter listed in paragraph 1, above, indicates that the names of officers subject to mandatory removal from an active status in the USAR prior to 19 February 1963 will not be submitted for consideration. Your mandatory removal date is 28 February 1963.

Colonel Jose A. Rivera, O 513 618

Bethesda, Maryland 20014

Dear Colonel Rivera:

In accordance with your request, DD Form 108, Application for Retired Pay Benefits, is inclosed.

It is requested that you complete the form in accordance with the instructions on the reverse side. Army regulations provide, in pertinent part, that statements of service are not necessary to document these applications and will not be requested for that purpose. The primary function of the DD Form 108 is to alert this office to possible service in another branch of the Armed Forces. The form should be completed to the best of your ability from the information available to you. Final computation of service and total points earned will be made from your official military records.

In Item 3, enter date of earliest eligibility or any later date, as you desire. Generally, the earliest eligibility date is the first of the month following the month age 60 is reached, regardless when the application is filed. If any question arises concerning the date you elected, you will be contacted for verification.

Your application should be submitted to this office approximately 60 days prior to your 60th birthday. If you have already attained age 60 or will reach that age within 60 days, request you forward your application at your earliest convenience.

You will be notified of final determination of your case following receipt of your application.

Sincerely yours,

D. D. SPAHR

Date August 8, 1942

The Administrator,
Federal Security Agency,
Washington, D. C.

Sir:

As requested on July 27, 1942(No. 42-316), the appointment of
Mr. Jose A. Rivera (Date of birth February 6, 1911), as Senior Medical
Technician, SP-6, \$2000 per annum in the Federal Security Agency, U. S.
Public Health Service, Dispensary, Washington, D. C., effective upon the
date of entrance on duty,

is approved under War Service Regulation V,

with the understanding that the appointee does not by such appointment
acquire a competitive status, or become eligible for any other position or
duties, and, if the position is within the scope of the Classification Act
of 1923, as amended, that the salary of the position is to be (or has been)
fixed according to the procedure under that act, before the appointment is
made.

It is requested that the inclosed duplicate be given to the appointee
to prevent misapprehensions which otherwise occur.

By direction of the Commission:

Very respectfully,

signed **Verne K. Harvey, M.D.**

Section 9A of Public 252—76th Congress, approved August 2, 1939, otherwise known as the "Hatch Act," provides:

"(1) It shall be unlawful for any person employed in any capacity by any agency of the Federal Government, whose compensation, or any part thereof, is paid from funds authorized or appropriated by any Act of Congress, to have membership in any political party or organization which advocates the overthrow of our constitutional form of government in the United States.

"(2) Any person violating the provisions of this section shall be immediately removed from the position or office held by him, and thereafter no part of the funds appropriated by any Act of Congress for such position or office shall be used to pay the compensation of such person;"

It is provided in various appropriation acts that no part of the funds so appropriated shall be used to pay the salary or wages of any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence, and that an affidavit shall be considered *prima facie* evidence that the person making the affidavit does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence. Such acts provide further that any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts employment, the salary or wages for which are paid from any such appropriation, shall be guilty of a felony and, upon conviction, shall be fined not more than \$1,000 or imprisoned for not more than 1 year, or both, and that the above penalty shall be in addition to, and not in substitution for, any other provisions of existing law.

* * * * *

I, José Rivera, do solemnly swear (or affirm) that I have read and understand the foregoing; that I do not advocate the overthrow of the Government of the United States by force or violence; that I am not a member of any political party or organization that advocates the overthrow of the Government of the United States by force or violence; and that during such time as I am an employee of the Federal Government, I will not advocate nor become a member of any political party or organization that advocates the overthrow of the Government of the United States by force or violence.

The above certificate was executed before me, in his own handwriting, by the identical person who has reported for assignment to duty. The appointee has been identified satisfactorily by the method described in Departmental Circular No. 195.

This is to be signed by a field officer of the department or bureau to which the appointee belongs, not by a notary public, and does not need to be sworn to.

(Officer's signature)

(Official title)

This form must be executed by the appointee before he enters on duty. It must then be forwarded promptly to the CIVIL SERVICE OFFICE which certified the appointee's name. The Department Officer before whom the certificate is made must sign the statement on the reverse of this sheet.

*For males, to be taken only upon special written request of the official ordering examination.

This report is to be returned to the official of the U. S. Civil Service Commission requesting the examination

The aim of the Executive order of Sept. 4, 1924, and of this examination thereunder is to obtain information as to the physical condition of appointees to the classified civil service with a view to promoting efficiency and minimizing accidents and claims under United States employees' compensation laws.

NOTES FOR EXAMINING PHYSICIAN

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat. If overweight, state whether due to bone and muscle or to fat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations, as to—

1. **EYES.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses.*

2. **EARS.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **NOSE.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **MOUTH.**—Missing teeth, pyorrhea.

5. **THROAT.**—Tonsils, hypertrophy or disease.

6. **THYROID.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **HEART.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated.

8. **LUNGS.**—It is necessary that the auscultatory cough be used. Tuberculosis; if present, state whether active or arrested, and if arrested your opinion as to how long it has been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **HERNIA.**—Give details as to size, location, etc., and whether well-fitting truss is worn. An inguinal hernia exists when ring is enlarged and impulse is felt on coughing.

11. Flat foot of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a weak foot with impaired function, the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying.

12 and 13. Scars, deformities, atrophies, and paralyses should be noted, but it is not important that small, insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. Urinalysis to be made and blood pressure to be taken in the cases of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected.

Record, if taken—Urinalysis—sp. gr. _____ Albumen _____ Sugar _____ Casts _____

Blood pressure: Mm. Hg. systolic 120 Mm. Hg. diastolic 80

If tachycardia is present, give pulse rate: Sitting _____ Immediately after exercise _____ Two minutes after exercise _____ Cardiac reserve _____

(Good, fair, or poor)

I have found this applicant abnormal under the following headings: _____

Dear Dr. Rivera,

Cilia, Ciliated Epithelium & Ciliary Activity

Your manuscript has now been approved by the Editors and I will shortly be handing it over to our Production staff for production.

There was one point, however, raised by Professor Bacq, on which I would like you to take note. He would like you to indicate, and I am sure you should, in the caption of each figure the reference to the paper from which you have taken the figure. Would you please let me have a list of those references and the figure numbers to which they relate. As this is a minor point it need not delay the production of the book, and these references can be incorporated at a later stage.

Nonetheless I should be grateful if you would let me have them just as soon as you can.

Yours sincerely,

T. K. Baxter.

*This
Certificate of Achievement
is awarded to*

MAJOR JOSE A. RIVERA, O513618, MSC

For outstanding service as Chief of the Bacteriology Branch, Laboratory Division, U.S. Army Surgical Research Unit, Brooke Army Medical Center, during the period 1 April 1954 through 30 September 1957. Major Rivera's investigative efforts in this capacity resulted in significant contributions to our knowledge of infection, wound healing, and antibiotic therapy. His basic bacteriological studies on classification of *Micrococcus pyogenes* and *Pseudomonas aeruginosa* by bacteriophage and chromatographic techniques have contributed significant knowledge in these fields. His keen interest in the dissemination of knowledge as evidenced by his teaching and speaking activities has resulted in his recognition as an authority in his field. Major Rivera's high standards of excellence in the performance of his duties and his selfless, indefatigable devotion to duty will continue to serve as an inspiration to the U.S. Army Surgical Research Unit and reflect the highest credit upon the Unit, Brooke Army Medical Center, and the Army Medical Service, as well as upon himself, his associates, and his profession.

Dear Colonel Rivera:

Your application for retired pay under title 10, United States Code, section 1331 has been approved. Letter orders effecting your retired pay are inclosed.

Inclosed are DD Form 418 and Treasury Department Form W-4 which should be completed and forwarded to the Chief, Retired Pay Division, Finance Center, U. S. Army, Indianapolis, Indiana 46249. These forms must be submitted before consideration for payment can be given.

It is requested that the Chief, Retired Pay Division, be notified of any change in your mailing address or status which would affect the payment of your retired pay or result in the discontinuance of such pay.

You may obtain an identification card by presenting a copy of the attached orders to the commanding officer of the nearest Army installation. You are eligible for commissary, post exchange and military theater privileges and may utilize these privileges at any service installation subject to directives as may be promulgated by local commanders.

I extend to you the best wishes of the Department of the Army for continued success and happiness in your newly acquired status.

Sincerely yours,

DD FORM 1 SEP 54 108

PREVIOUS EDITIONS OF THIS FORM ARE OBSOLETE.

INSTRUCTIONS

This form is to be submitted in one copy (*duplicate for Naval personnel*). Entries must be typewritten or hand printed. Brief instructions for making entries on the reverse side are provided below in numerical order. Submission of official statements of service is not required. If all information required is not readily available, prepare form to the best of your ability.

ITEM 1 - Addresses of Headquarters of Armed Forces for purpose of forwarding application for retired pay are listed below. Application will be addressed to the Armed Force in which you are presently (*or were last*) a member.

ARMY: CO, U.S. Army Records Ctr., Attn: AGAC-S
9700 Page Blvd., St. Louis, Mo. 63132

NAVY: Chief of Naval Personnel, Navy Department,
Washington 25, D. C.

AIR FORCE: Chief of Staff, U. S. Air Force,
Washington 25, D. C.

MARINE CORPS: Commandant, United States Marine
Corps, Washington 25, D. C.

COAST GUARD: Commandant, United States Coast
Guard, Washington 25, D. C.

ITEM 2 - Enter correct date of birth (*proof of date of birth may be required before final action is taken on application*).

ITEM 3 - Enter date you desire retired pay to begin (*cannot be before age 60*).

ITEM 4 - Enter your name in the order indicated.

ITEM 5 - Enter highest grade or rating held in Armed Forces.

ITEM 6 - Enter service (*serial*) number. If you have been a member of more than one Armed Force, enter the service number of each, i.e., "2 532 430 ARMY" and "603-1-91 NAVY".

ITEM 7 - Enter your present home address.

ITEM 8 - Enter the complete designation of your present organization. If you are presently a member of a National Guard organization, give name of state. If not a member of a reserve organization, enter "none".

ITEM 9 - Enter the Armed Force and component for periods of service covered in Item 11. Example: "Army, USAR" "Navy, USNR". All enlisted service will include organization to which you were assigned. For National Guard service, include name of state.

ITEM 10 - Enter the highest grade or rating held during each period of service shown in Item 11.

ITEM 11 - Enter approximate dates of each individual period of service. Example: 2 May 1936 to 1 May 1939; 20 Oct 1942 to 15 Nov 1946.

ITEM 12 - Enter inclusive dates of all periods of active duty performed during each individual period of service indicated in Item 11.

ITEM 13 - Enter inclusive dates of each individual year of service performed after 30 June 1949. Example: If you were a member of a reserve component on 1 July 1949, your retirement year will be from 1 July 1949 to 30 June 1950, your second year will be 1 July 1950 to 30 June 1951, etc. If you were not a reservist on 1 July 1949 or have had a break in service since that time, your retirement year will begin on the date of acquiring an active status in a reserve component and end one year later. Example: 15 Sep 1956 to 14 Sep 1957.

ITEM 14 - Enter the Armed Force and component in which you served during each year as shown in Item 13. All enlisted service will also include the organization to which you were assigned during the year specified, and, in case of National Guard service, name of state.

ITEM 15 - Enter highest grade or rating held during each year of service shown in Item 13.

ITEM 16 - Enter inclusive dates of all periods of active duty, including active duty for training, performed during the year or years indicated in Item 13.

ITEM 17 - Enter the total retirement points earned for each period shown in Item 13. This total to include points earned through drills, correspondence courses, active duty, membership, etc.

ITEM 18 - Place your signature in this space. Signature appearing therein must coincide with the name shown in Item 4.

ITEM 19 - Insert date application is prepared.

NOTE: Primary purpose of Items 9 through 17 is to enable reviewing authority to verify service which may not be of record.

Dear Mrs. Rivera:

Please refer only to the paragraphs checkmarked below.

[] Department of the Army policy forbids release of home addresses unless an emergency or other critical situation exists. Regulations do, however, permit us to forward letters to the last known address of separated service-members. Your letter has been forwarded.

[] Action cannot be taken on your request because we have been unable to identify a record of service for the person concerned.

[] The enclosed letter is being forwarded to you by our office because Army regulations forbid release of your home address to the sender. The sender has been informed of this referral. Please use your own judgement in replying.

[] The service member you have inquired about is on active duty. Your request has been forwarded to:

() Enlisted persons: U. S. Army Enlisted Records Center, Fort Harrison, Indiana, 46249.

() Officers: U. S. Army Military Personnel Center, Personnel Actions and Records Directorate, Hoffman Building 1, 200 Stovall Street, Alexandria, Virginia, 22331.

[] We are unable to comply with your request because your service records were destroyed in a major fire at this Center on 12 July 1973. If you will resubmit your request with copies of your separation papers and any orders pertaining to your awards to this Center, attention: DARC-PSE-AW, further action can be taken. Enclosed is a list of other offices where these papers may be obtained. Please return this correspondence and all enclosures with your request.

[] Release of the information you have requested would be a violation of the Privacy Act of 1974. The information may be released if you furnish a signed authorization from the service member concerned. Please return all of the enclosed with the authorization.

[] Service records sent to this Center for filing may require _____ days to be processed and computer-indexed before they become available for our use. Please resubmit your request _____ days from the date of this letter.

[] In order to process your request, please furnish this office with your written signature and return all of the enclosed.

X] Enclosed is a copy of requested retirement order.

Sincerely,

RICHARD W. PEDERSON
LTC, GS

RATED OFFICERS NAME AND SERVICE NUMBER RIVERA, JOSE A. 0 513 618					
SECTION IV - ESTIMATED PERFORMANCE OF OTHER DUTIES					
Estimate the level at which the rated officer would perform in each type of duty described below by indicating for each item the appropriate number shown in the Performance Legend. The Performance Legend contains six steps with each step indicating a level of performance. Consider each item in terms appropriate to rated officer's grade and branch. Use the UNKNOWN (UNK) only if the nature of your contacts make it impracticable for you to make an estimate of his probable performance in a particular assignment. Marking UNKNOWN does not penalize the rated officer.					
PERFORMANCE LEGEND	UNK - UNKNOWN	1 - SATISFACTORY	3 - EXCELLENT	5 - OUTSTANDING

SECTION V - TRAITS, QUALITIES AND CHARACTERISTICS			SECTION VII - PROMOTION POTENTIAL		
Study carefully the listed attributes which apply in some degree to all officers. Designate in order of priority, as M1, M2 and M3 the three attributes which are the MOST PRONOUNCED in the rated officer. If considered appropriate a maximum of four additional MOST PRONOUNCED attributes may be indicated as M. Attributes which are considered to be LEAST PRONOUNCED in the rated officer may, if considered appropriate, be indicated as L.			Considering only officers of his grade, branch, and about the same time in grade, what is your opinion of this officer's promotion potential? Place a heavy X in the box opposite best description. A recent promotion or a branch transfer requires a comparison with other officers under similar circumstances.

15. DESCRIPTION OF OFFICER RATED AND COMMENTS (These paragraphs should cover physical, mental, moral qualities of rated officer, and any special strengths or weaknesses affecting his ability to do certain assignments not covered elsewhere in the report)				
A. COMMENTS OF RATING OFFICER This officer is a gregarious, well-liked individual, interested in both bacteriology and pathology. His temperament is volatile, and his performance varies in quality depending on his interest in the subject at hand. During his conduct of the TB laboratory, he showed a rapid rise in effectiveness of performance, from his initial effort, and brought the section up to a level of effectiveness that had been for some time lacking. It is felt that Maj. Rivera is a good laboratory officer, and that his aptitudes and interests lie principally within the scope of work conducted by a general hospital laboratory. His ability as a linguist is a real advantage to his organization in an overseas assignment.				
B. COMMENTS OF INDORSING OFFICER ☐ I DO NOT KNOW THE RATED OFFICER BUT I HAVE CONFIDENCE IN THE RATER'S JUDGMENT ☐ I DO NOT KNOW THE RATED OFFICER VERY WELL BUT I HAVE CONFIDENCE IN THE RATER'S JUDGMENT Major Rivera is a conscientious worker, well qualified in the field of bacteriology both from the standpoint of routine diagnostic procedures and research laboratory procedures. He has a tendency to over-extend himself and thus contract to perform jobs beyond his capacity. Other than this his judgment is good and he has great initiative. He is friendly, popular, and a capable officer who will do a good job in almost any type of clinical laboratory assignment.

15. DESCRIPTION OF OFFICER RATED AND COMMENTS (These paragraphs should cover physical, mental, moral qualities of rated officer, and any special strengths or weaknesses affecting his ability to do certain assignments not covered elsewhere in the report)

A. COMMENTS OF RATING OFFICER

This officer is an extremely amiable, likeable individual who is interested in pathology as well as in bacteriology. In the bacteriology laboratory he is competent but somewhat erratic in performance, in that his initial enthusiasm requires guidance for efficient utilization of his efforts. His relationship with fellow officers and enlisted men is extremely cordial and he is well-liked. During his current assignment with this department he has shown increasing interest in study and advancement in bacteriology.

B. COMMENTS OF INDORSING OFFICER ☐ I DO NOT KNOW THE RATED OFFICER BUT I HAVE CONFIDENCE IN THE RATER'S JUDGMENT
☐ I DO NOT KNOW THE RATED OFFICER VERY WELL BUT I HAVE CONFIDENCE IN THE RATER'S JUDGMENT

A competent bacteriologist and laboratory officer with certain limitations. The greatest of these is failure to recognize his own limitations. He is popular, pleasant, and is generally a valuable officer.

A. COMMENTS OF RATING OFFICER This officer is a well trained bacteriologist and has performed his duties very well. His knowledge of his field indicates he is well-read and very interested in his work. He has difficulty at times, however, in making himself clearly understood, which is at least partly due to language difficulties (he is of Spanish extraction). His ideas are not always clearly thought out before presentation. His adjustment to this assignment has been excellent, in view of the fact that he had been looking forward to having his family with him in Japan. He has shown ability in the proper utilization of manpower.

15. DESCRIPTION OF OFFICER RATED AND COMMENTS (These paragraphs should cover physical, mental, moral qualities of rated officer, and any special strengths or weaknesses affecting his ability to do certain assignments not covered elsewhere in the report)

A. COMMENTS OF RATING OFFICER The officer is an extroverted, ebullient individual, socially very adaptable, and one who cheerfully undertakes a wide variety of duties. He is relatively familiar with the field of medicine, especially in tissue pathology, although his professional interest in his field of specialization, (i.e., bacteriology) seems at times to be somewhat limited. He is relatively competent in direction of a section, but does not in all cases exercise close supervision or a high degree of discretion in evaluating the performance of subordinates. The officer being rated is extremely compatible with a wide variety of technician personnel, and the atmosphere in his section is congenial. However, in details of technique in which differentiation is important in establishing a high level of work quality, he tends to have only a moderate degree of perception. He is capable of carrying out instructions well, provided they are thoroughly understood. However, he is not an individual who (see attached sheet #1 incl)

B. COMMENTS OF INDORSING OFFICER ☐ I DO NOT KNOW THE RATED OFFICER BUT I HAVE CONFIDENCE IN THE RATER'S JUDGMENT ☐ I DO NOT KNOW THE RATED OFFICER VERY WELL BUT I HAVE CONFIDENCE IN THE RATER'S JUDGMENT

This report has been discussed with the rating officer. I have confidence in his judgment and concur in his opinion. I am aware of the rated officer's deficiencies having been discussed with him. It is felt that in an assignment to a station hospital laboratory, or to a general hospital laboratory under supervision, the rated officer would technically perform and supervise routine clinical laboratory work in a highly creditable manner. It is felt his future assignments should be made accordingly. This recommendation is no reflection of his willingness, conscientiousness, and desire to please.

cont'd.

Par 13: conducted studies on techniques of rapid anserobe identifica-
tion and made extensive attempts to recover leptospira from suspected
human cases by animal inoculation. Additional duties included
management of diagnostic technique training program for officers
and enlisted men, and conducting of training program for depart-
ment.

par 15a. is particularly adept at conducting research studies, since he
tends to deviate from protocol to a marked extent. His energies
are particularly well employed in conducting a diagnostic and
clinical laboratory.

A. PERFORMANCE OF DUTY - CONSIDERING ONLY OFFICERS OF HIS GRADE AND BRANCH WITH ABOUT THE SAME COMMISSIONED SERVICE, RATE THE OFFICER ON PERFORMANCE OF his duty assignment. READ ALL DESCRIPTIONS AND PLACE A HEAVY X IN THE BOX OPPOSITE BEST DESCRIPTION.

- EXCELS ANY OTHER OFFICER I KNOW IN PERFORMANCE OF THIS DUTY
- OUTSTANDING PERFORMANCE OF THIS DUTY FOUND IN VERY FEW OFFICERS
- VERY FINE PERFORMANCE OF DUTY OF SUCH A NATURE THAT THIS OFFICER WOULD BE HARD TO REPLACE
- PERFORMS THIS DUTY IN SUCH A COMPETENT, DEPENDABLE MANNER THAT THIS OFFICER IS AN ASSET TO THE SERVICE
- USUALLY PERFORMS THIS DUTY COMPETENTLY
- BARELY ADEQUATE IN PERFORMANCE OF THIS DUTY
- INADEQUATE IN THE PERFORMANCE OF THIS DUTY

B. IN THE EVENT OF immediate mobilization, WHAT IS THE highest level of performance YOU WOULD EXPECT FROM THE RATED OFFICER? READ ALL DESCRIPTIONS AND PLACE A HEAVY X IN THE BOX OPPOSITE BEST DESCRIPTION.

- WOULD GIVE AN OUTSTANDING PERFORMANCE AT two grade levels HIGHER
- WOULD GIVE A COMPETENT AND DEPENDABLE PERFORMANCE AT two grade levels HIGHER
- WOULD GIVE A FAIRLY ADEQUATE PERFORMANCE AT two grade levels HIGHER
- WOULD GIVE AN OUTSTANDING PERFORMANCE AT THE next higher GRADE
- WOULD GIVE A COMPETENT AND DEPENDABLE PERFORMANCE AT THE next higher GRADE
- WOULD GIVE A FAIRLY ADEQUATE PERFORMANCE AT THE next higher GRADE
- WOULD GIVE AN INADEQUATE PERFORMANCE AT THE next higher GRADE

SECTION IV

WHAT IS YOUR ESTIMATE OF THE RATED OFFICER'S OVERALL VALUE TO THE SERVICE? COMPARE HIM WITH OFFICERS OF THE SAME GRADE, BRANCH AND OF ABOUT THE SAME LENGTH OF COMMISSIONED SERVICE. PLACE A HEAVY X OPPOSITE THE MOST APPROPRIATE DESCRIPTION.

8. THE MOST OUTSTANDING OFFICER I KNOW

7. ONE OF THE FEW HIGHLY OUTSTANDING OFFICERS I KNOW

6. A VERY FINE OFFICER WHO IS A DISTINCT ASSET TO THE SERVICE

5. A COMPETENT, DEPENDABLE OFFICER OF GREAT VALUE TO THE SERVICE

4. A TYPICALLY EFFECTIVE OFFICER WHO IS A CREDIT TO THE ARMY

3. AN ACCEPTABLE OFFICER WHOSE VALUE IS LIMITED IN SOME RESPECTS

2. AN OFFICER WHO PERFORMS ACCEPTABLY IN A LIMITED RANGE OF ASSIGNMENTS, BUT WHO COULD EASILY BE REPLACED

1. AN OFFICER WHO DOES NOT HAVE THE CREDENCE THAT ONE SHOULD REASONABLY EXPECT IN AN OFFICER

CLINICAL RECORD		NARRATIVE SUMMARY
DATE OF ADMISSION 8 Jul 57	DATE OF DISCHARGE 18 Jul 57	NUMBER OF DAYS HOSPITALIZED

HISTORY OF PRESENT ILLNESS: (Sign and date at end of narrative) Two days prior to admission the patient noted an onset of malaise, generalized feeling of ill being and shortly thereafter a dry non-productive, cough. The patient's wife was hospitalized 12 days prior to this with a viral pneumonitis, which had similar onset but which was running a protracted course at that time. Aside from these complaints, the patient had no other complaints at the time.

PAST HISTORY & SYSTEMIC REVIEW: Reveal the patient had loose stools, with occasional blood streaking which has been present for approximately 4 years with onset in Korea and was associated with a non-bloody diarrhea which lasted approximately 1 to 2 weeks. Patient had noticed no mucous or pus in the stools. Denied hemorrhoids. The looseness of the stool was rather constant and routine affair; loose stools were passed 3 to 4 times daily. He stated that these were not associated with abdominal tenderness or cramping. At times there was increase in the consistency of the stools. On occasions the patient, who is a bacteriologist, has examined the stool himself for ova and parasites. He had never discovered any. Patient has never been worked up for this condition.

PHYSICAL EXAMINATION: On admission revealed a well developed, well nourished white male in no acute distress. He was not acutely or chronically ill. Pulse 80, respiration 16, temperature 101, blood pressure 160/80. Examination of the HEENT was within normal limits. There was no pharyngeal injection. Neck was supple; thyroid was not palpable. There was no significant lymphadenopathy. The chest was symmetrical; diaphragm moved with normal excursion. Examination of the lungs revealed them to be clear to percussion and auscultation. Examination of the heart was within normal limits. No murmurs or thrills were heard. A-2 was greater than P-2. Examination of the abdomen revealed liver, kidney, and spleen to be non-palpable. No masses, tenderness, or rigidity noted. Bowel sounds were normal. Rectal examination was deferred until proctoscopic examination at a later date. Examination of the genitalia, skin, extremities, and neurological examination were within normal limits.

LABORATORY DATA: Skin testing revealed a 2+ to 2nd strength histoplasmosis and PPD at 48 hours. Coccidiomycosis was negative. A smear of the sputum on admission revealed no fungi or yeast-like organisms. Three examination of the stools for ova and parasites were negative. A swab taken at proctoscopic examination and cultured for enteric pathogens revealed no organisms of the Salmonella or Shigella groups. Cold agglutinins performed on 8 Jul 57 were negative. Throat culture revealed streptococcus alpha and beta. Initial hemogram revealed 7,700 white cells, 52 neutrophils, 48 lymphocytes, hemoglobin 13.5, sedimentation rate 27, and hematocrit 45. Corrected sedimentation rate was 24. Urine was yellow, slightly cloudy, acid, 1013, negative for sugar,

albumin and acetone; there was a rare white blood cell and amorph sediment present. Serology was negative. Sputum culture revealed streptococcus alpha and beta.

Radiological studies performed in the hospital are as follows:

Barium Enema, 16 Jul 57; the varium flowed without hesitation or delay thru the entire colon with prompt reflux into the terminal ileum. The post-fluoroscopic including the post-evacuation films showed no abnormalities. Impression: Normal barium enema.

Chest plate on 11 Jul 57; there appears to have been slight progression of the amount of infiltration present in the left base, as compared to study of two days before. There has been no change present in the amount of infiltration present in the right base.

Chest plate, 17 Jul 57: revealed decrease in the amount of infiltration in both bases, most marked on the right. The chest was approaching that of a normal chest. Upper GI series, 16 Jul 57: the esophagus, stomach and duodenum appeared normal throughout. No evidence of ulceration or neoplasm. There was no evidence of any abnormal fistulous formation. The 1-hour film after the barium meal revealed that the barium is in the jejunum. This is within normal limits. Impression: Normal upper GI series. An incidental note was made that there was some barium remaining in the inferior portion of the cecum from the previous barium enema. The significance of this is not apparent.

EKG revealed a tracing to be within normal limits. There has been no important change since the previous tracing in Oct 56.

COURSE IN THE HOSPITAL:

On admission, because of the history and physical examination, it was determined this patient had a viral pneumonitis. Temperature was 102 the first day; the second day it was 102°; and on the third day and the remainder of hospitalization the temperature was within normal limits. Patient developed coarse breath sounds and rales in both bases and in the right upper lobe. This persisted for approximately 7 days. There was an increase in the amount of coughing, however the cough was never productive of much more than a small amount of mucoid sputum. There was a slight blood flecking of the sputum. During the first week of hospitalization the cough diminished rather abruptly, patient felt much better in general, and the chest signs diminished. At the time of discharge, there were a few coarse breath sounds in the bases. Patient was afebrile, had a minimal amount of coughing, and he was returned to full duty. While in the hospital, Laboratory data were performed at the patient's request. He was seen by the Gastroenterologists; Procyoscopic examination was done which revealed mild excoriations externally, digital examination revealed 1+ enlarged prostate which was not nodular. Anoscopic examination was normal. Proctoscopic: Narrowing of the lumen at 6", no mucosal lesions seen above or below. The impression was that the narrowing at 6" was questionably inflammatory in origin and that the proctoscopic examination

should probably be repeated at a later date. Patient was informed of this. While in the hospital, the patient was treated with bed rest, forced fluids, aspirin, PRN, Benilin expectorant and brown's mixture daily. He was not given any antibiotics. Patient was discharged back to full duty on 18 Jul 57. Because of the findings of beta streptococcus in the throat, the patient was called and requested to report to the Emergency Room for injection of 1.2 million units of Bicillin.

1) 3001-100 Acute undifferentiated respiratory disease, organism undetermined, treated, improved on discharge, NPR, LOD: Yes.

Patient was called on 23 Jul 57 and requested to report to the Emergency Room for 1.2 millions units of Bicillin due to beta streptococcus recovered on throat culture.

PHYSICAL CERTIFICATE

PART I

To be completed by individual prior to or upon reporting for active duty, as appropriate.

PLACE: Armed Forces Institute of Pathology
Washington 25, D. C.

DATE: 19 May 1958

I now consider myself sound and well and physically qualified for full military duty. I was considered physically qualified for military service at the time of accomplishment of my last physical examination on or about 30 Sep 1957 at Brooke Army Med Center, Ft Sam Houston, Texas. To the best of my knowledge and belief, I have no physical defects or conditions, except as noted below,* which would preclude the performance of full military duty. None

(Signed)

Jose A. Rivera

* A physical examination (Forms 88 and 89) will be accomplished in lieu of Certificate in the event an exception exists.

PART II

To be accomplished by individual upon completion of active duty tour.

PLACE: Armed Forces Institute of Pathology
Washington 25, D. C.

DATE: 23 May 1958

I certify that during the period of active duty training from 19 May 1958 to 23 May 1958, there has been no change in my physical condition and that I am not* suffering any disability or defect which was not present at the beginning of such tour of duty.

(Signed)

Jose A. Rivera

* A physical examination (Forms 88 and 89) will be accomplished in lieu of Certificate in the event an exception exists.

RELEASED BY NARA DATE 4-24-18

SERVICEMAN'S STATEMENT CONCERNING APPLICATION FOR COMPENSATION FROM THE VETERANS ADMINISTRATION (VA FORM 8-526e)	DATE
PLACE OF SEPARATION (<i>Hospital or other separation activity</i>)	
INSTRUCTIONS Each officer and enlisted person being processed for separation from active military service for any reason who has undergone prolonged hospitalization, or suffered from wounds, injury or disease while in service, is advised to apply for compensation from the Veterans Administration by completing VA Form 8-526e. Each individual who had a physical defect when he entered the service which he feels was aggravated by military service should file VA Form 8-526e. You are further advised that, if you do not apply for compensation from the Veterans Administration by completing VA Form 8-526e at the time of separation, you may do so at any time thereafter; that, if you do intend to file, it is advisable to do so before you leave the service as at that time your medical records are more easily obtainable and action by the Veterans Administration on your claim will be expedited thereby; and that filing VA Form 8-526e will in no way delay your separation. When you have read the above paragraph, place your initials at the end of this sentence.	
I AM BEING PROCESSED FOR SEPARATION FROM THE ARMY AND HAVE BEEN ADVISED THAT I AM ENTITLED TO FILE AN APPLICATION FOR COMPENSATION FROM THE VETERANS ADMINISTRATION. ☐ I HAVE FILED AN APPLICATION FOR SUCH COMPENSATION ON VA FORM 8-526e. ☒ I HAVE DECIDED NOT TO FILE AN APPLICATION FOR SUCH COMPENSATION AT THIS TIME. I UNDERSTAND THAT I MAY DO SO AT A LATER DATE.	
NAME, GRADE, AND SERVICE NO. (<i>Addressograph plate may be used in this space.</i>)	SIGNATURE OF INDIVIDUAL BEING SEPARATED 
PREPARATION AND DISTRIBUTION ORIGINAL will be prepared in all cases. Attach to SF 88 and forward to The Adjutant General with personnel records. DUPLICATE will be prepared in all disability separations regardless of whether VA Form 8-526e is prepared, and in all other types of separations only when VA Form 8-526e is prepared. Attached to #4 copy of DD Form 214 and duplicate copy of SF 88. Forward to VA regional office having jurisdiction over area in which individual's home is located as shown in item 47, DD Form 214, not later than 48 hours after separation.

SUBJECT: Extension of Service

THRU: Commanding General
Brooke Army Medical Center
Fort Sam Houston, Texas

TO: Major Jose A. Rivera
Brooke Army Medical Center
Fort Sam Houston, Texas

1. Reference your application for retention on active duty in the Army of the United States.
2. Department of the Army records indicate you will reach age 35 on 6 February 1960 at which time you will have less than 20 years active Federal service. In order to be eligible for retention on active duty under current policy, an officer must be able to qualify for retirement in accordance with the provisions of paragraph 6a, AR 635-130 (twenty years active Federal service, ten of which must be served as a commissioned officer) by the time he attains the maximum age for his grade as indicated in AR 135-215. Unfortunately you will not be able to meet this requirement, therefore your application for further active duty under the provisions of AR 135-215 cannot be favorably considered.
3. In establishing the policy that an officer would be released from active duty unless he could qualify for retirement as indicated above, the Department of the Army considered it far more fair to the individual to release him as soon as his inability to qualify is determined rather than delay release until a later date. Thus he would be better able to reestablish himself in civilian life as soon as possible and at an earlier age. In view of the above, provisions were included in Section XIII, AR 135-173 for early release of officers whose request for further active duty is denied. However, since voluntary release from active duty precludes payment of lump sum readjustment pay under the provisions of Public Law 676, 84th Congress (DA Bulletin 8, 1956), you will not be released prior to expiration of your current category as a result of denial of further active duty unless you request such release.
4. Your loyal service to the Army over the past years is sincerely appreciated and it is regretted that circumstances are such as to preclude your retention on active duty.

INSTRUCTIONS FOR COMPLETING FORM

ITEM

1. Self explanatory.
2. Include all service numbers held as enlisted, warrant officer, or commissioned. List current number first.
3. Self explanatory.
4. Indicate grade in which serving and date of rank.
5. Indicate present USAR or NGUS grade and original date of appointment.
6. Indicate highest grade held.
7. Indicate National Guard of the United States (NGUS), Army Reserve (USAR), or Army of the United States (AUS).
8. Under CB indicate control branch and under BB indicate basic branch.
9. List ALL service chronologically, INCLUDING ACTIVE DUTY in the Armed Forces, Coast Guard, and Reserve components. Make separate entries for service as a commissioned officer, warrant officer, or enlisted status, but otherwise if there was no break in service (discharge or termination of commission or appointment) or change in component, cover the entire period with one entry regardless of active duty tours, changes in assignments or grade during the period. Example:

			From		To	Total
Enlisted	NGUS	Yes	4 Oct 31	to	1 Jan 36	4-2-28
Commissioned	USAR	Yes	2 Jan 36	to	28 Feb 54	18-1-27

Indicate by "yes" or "no" in Column 3, whether or not the service qualifies as "satisfactory Federal service". If the entire period does not qualify as "satisfactory Federal service" indicate by numerals the number of years of "satisfactory Federal service" completed during the particular period. Total service as indicated. See AR 35-1110, 25 May 1950, and Section 306, DA Bul 29, 1948.

10. List in chronological order all ACTIVE DUTY in the Armed Forces, INCLUDING FULL TIME active duty training, National Guard encampments and attendance at service schools. Armory drills or service in an ROTC or CMTC capacity will not be included. "Time lost" refers to lost time listed in 1951 Manual for Courts-Martial, Sec 6(a) Appendix 2b. Total service as indicated.

INSTRUCTIONS

This form will be executed upon acceptance of appointment as an officer in the Army of the United States as indicated at top of form. Immediately upon receipt of notice of appointment, the appointee will, in case of acceptance of the appointment, return to the agency

from which received the oath of office on this form properly filled in, subscribed, and attested. In case of nonacceptance, the notice of appointment will be returned to the agency from which received by letter indicating the fact of nonacceptance.

FOR THE EXECUTION OF THE OATH OF OFFICE

1. Whenever any person is elected or appointed to an office of honor or trust under the Government of the United States, he is required before entering upon the duties of his office, to take and subscribe the oath prescribed by section 1757, Revised Statutes, (5 U.S.C. 16; M.L. 1949, sec. 118).

2. The Act of 14 October 1942 (56 Stat. 787; 10 U.S.C. 558, M.L. 1949, sec. 276a), eliminates the necessity of executing oath on promotion of officers.

3. The oath of office may be taken before any commissioned officer of a regular or reserve component of any of the Armed Forces whether or not on active duty (Act of 22 May 1950 (64 Stat. 187; 10 U.S.C. 19; sec. VII, DA Bul 10, 1950)), or before any warrant officer serving

on active duty as an adjutant, assistant adjutant, acting adjutant or personnel adjutant in any of the Armed Forces (See Article 136, Uniform Code of Military Justice). A warrant officer administering the oath of office will show his title in the block to the left of his signature.

4. Oath of office may also be taken before some civil officer who is authorized by the laws of the United States or by the local municipal law to administer oaths, and if so administered by a civil official, the oath must bear the official seal of the person administering the oath, or if a seal is not used by the official, the official's capacity to administer oaths must be certified to under seal by a clerk of court or other proper local official.

SUBJECT: Reserve Promotion of Officers on Active Duty

1 October 1953

TO: Commanding Officer 8059AU Tokyo Army Hospital
APO 1052, c/o PM, San Francisco, California

1. The above named officer has been selected for a permanent Reserve promotion by a board of officers convened by the Department of the Army. Since the grade for which selected is higher than that in which he is currently serving on active duty as shown by the records of this office, paragraphs 1c and 2d, AR 135-157 are applicable.

2. There are inclosed:

- a. Election statement (inclosure 1).
- b. Temporary AUS appointment in grade in which currently serving on active duty (inclosure 2).
- c. Appointment (promotion) in the higher grade as a Reserve commissioned officer of the Army (inclosure 3).

3. It is desired that you take action as outlined in the foregoing paragraphs, following the procedures and timing exactly as specified. If there is known to you any reason why this officer should not receive an appointment in the AUS or a Reserve promotion, all papers will be returned to this office without action and a statement of the reasons why it is believed the promotion should not be effected.

4. Secure from the officer the signed statement of election (inclosure 1).

5. If the officer elects to be relieved from active duty, return immediately the signed statement together with letters of appointment and unexecuted oaths of office to this office, attention: AGPR-A. Inform the officer that action to relieve him from active duty will be taken as soon as practicable after return of papers to this office, and that the Reserve appointment (promotion) will be transmitted to the Chief of the Military District or State Adjutant General, whichever is appropriate, of permanent home residence for action subsequent to his relief from active duty.

a. Deliver to him the temporary Army of the United States appointment in current grade (inclosure 2) and have him execute the oath of office attached thereto.

b. ON THE DAY NEXT FOLLOWING DATE OF EXECUTION OF OATH OF OFFICE ACCEPTING AUS APPOINTMENT, deliver the Reserve Appointment in the higher grade (inclosure 3) and have him execute the oath of office.

c. Forward under one cover to this office, attention: AGPR-A, the election statement and oaths of office, after checking to insure that all are in proper order.

7. If officer is no longer a member of your command, forward these papers to his current commanding officer and notify this office. If officer has been relieved from active duty all papers will be returned to this office, attention: AGPR-A.

8. This action is of importance to the individual and it is essential that it be expeditiously and carefully completed. Particular attention is called to the date of execution of the oath of office covering the Reserve appointment (promotion) which must be as of a date subsequent to the date of execution of the AUS appointment oath of office.

SUBJECT: Reserve Promotion of Officers on Active Duty

TO: Commanding Officer
Tokyo Army Hospital
APO 1052, c/o PM
San Francisco, Calif.

1. The above named officer has been selected for a permanent Reserve promotion by a board of officers convened by the Department of the Army. Since the grade for which selected is higher than that in which he is currently serving on active duty as shown by the records of this office, paragraphs 1c and 2d, AR 135-157 are applicable.

2. There are inclosed:

- a. Election statement (inclosure 1).
- b. Temporary AUS appointment in grade in which currently serving on active duty (inclosure 2).
- c. Appointment (promotion) in the higher grade as a Reserve commissioned officer of the Army (inclosure 3).

3. It is desired that you take action as outlined in succeeding paragraphs, following the procedures and timing exactly as specified. If there is known to you any reason why this officer should not receive an appointment in the AUS or a Reserve promotion, all papers will be returned to this office without action and a statement of the reasons why it is believed the promotion should not be effected.

4. Secure from the officer the signed statement of election (inclosure 1).

5. If the officer elects to be relieved from active duty, return immediately the signed statement together with letters of appointment and unexecuted oaths of office to this office, attention: AGPR-A. Inform the officer that action to relieve him from active duty will be taken as soon as practicable after return of papers to this office, and that the Reserve appointment (promotion) will be transmitted to the Chief of the Military District or State Adjutant General, whichever is appropriate, of permanent home residence for action subsequent to his relief from active duty.

INSTRUCTIONS

This form will be executed upon acceptance of appointment in one of the components of the Army of the United States indicated at top of form. Immediately upon receipt of notice of appointment, the appointee will, in case of acceptance of the appointment, return to the agency from which received the oath of office on this

form properly filled in, subscribed, and attested. Grade and Branch or Section following the words "having been appointed", will be the grade and branch or section of appointment. In case of nonacceptance, the notice of appointment will be returned to the agency from which received by letter indicating the fact of nonacceptance.

FOR THE EXECUTION OF THE OATH OF OFFICE

1. Whenever any person is elected or appointed to an office of honor or trust under the Government of the United States, he is required before entering upon the duties of his office, to take and subscribe the oath prescribed by section 1757, Revised Statutes.

2. Act of Congress approved 14 October 1942, (Sec 1, Bul 52, W.D., 1942), eliminates the necessity of executing oath on promotion of officers.

3. Oath of office may be taken before a commissioned officer of any component (including the reserve compo-

ment), of any of the armed forces of the United States, whether or not on active duty (Act of Congress, approved 22 May 1950 - Bul 10, DA 1950).

4. Oath of office may also be taken before some civil officer who is authorized by the laws of the United States or by the local municipal law to administer oaths, and if so administered by a civil official, the oath must bear the official seal of the person administering the oath, or if a seal is not used by the official, the official's capacity to administer oaths must be certified to under seal by a clerk of court or other proper local official.

November 18, 1948

Capt. Jose A. Rivera
Valley Forge General Hospital
Phoenixville, Pennsylvania

Dear Capt. Rivera:

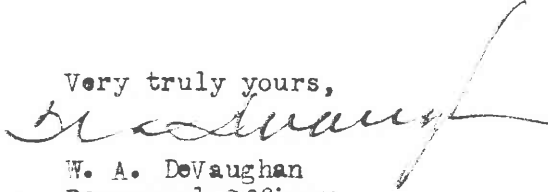

The other day your wife brought in to us your completed application form in connection with your proposed appointment as a Bacteriologist P-4 for duty in Mexico City, Mexico.

After reviewing your qualifications it has been decided that we would like very much to secure your services for this position. As indicated in our previous letter, the basic salary of the job is \$5232 per annum and in addition you would be entitled to quarters and cost of living allowances amounting to approximately \$1490 per annum without dependents at the foreign post and about \$2145 per annum with dependents residing at the foreign post. Persons employed on the foot-and-mouth disease program in Mexico from outside the Department of Agriculture are given appointments limited to one year in duration subject to extension on a year to year basis, provided services are satisfactory and continue to be needed.

There is enclosed a copy of Circular Letter No. 2937, Revision II which furnishes additional information regarding the Mexican assignments. Immediately upon receipt of this letter we would appreciate your ascertaining from the proper military authorities whether it would be permissible for you to resign your commission or otherwise be relieved of active duty with the Army for the purpose of accepting this position. We need to have this information just as quickly as possible so that we can recruit someone else in the event your release cannot be worked out. If you find that you can be released, please execute and forward to us the enclosed form AD-125 Supplement. Moreover, the enclosed medical certificate should be executed for you and returned with the Form AD-125. In addition the enclosed agreement to remain one year should be filled out by you and should accompany the other papers. You will note that application for passport should be made in accordance with Section V of Circular Letter No. 2937, Revision II. This office should be notified of the date and place from which the passport application was made. Section VI of the Circular Letter covers the vaccinations, inoculations, etc. which you should arrange to receive in the event your release from the Army is forthcoming.

Your early reply will be appreciated.

Very truly yours,

W. A. DeVaughan
Personnel Officer

MAJOR JOSE A. RIVERA, O513618, MSC

For outstanding service as Chief of the Bacteriology Branch, Laboratory Division, U.S. Army Surgical Research Unit, Brooke Army Medical Center, during the period 1 April 1954 through 30 September 1957. Major Rivera's investigative efforts in this capacity resulted in significant contributions to our knowledge of infection, wound healing, and antibiotic therapy. His basic bacteriological studies on classification of *Micrococcus pyogenes* and *Pseudomonas aeruginosa* by bacteriophage and chromatographic techniques have contributed significant knowledge in these fields. His keen interest in the dissemination of knowledge as evidenced by his teaching and speaking activities has resulted in his recognition as an authority in his field. Major Rivera's high standards of excellence in the performance of his duties and his selfless, indefatigable devotion to duty will continue to serve as an inspiration to the U.S. Army Surgical Research Unit and reflect the highest credit upon the Unit, Brooke Army Medical Center, and the Army Medical Service, as well as upon himself, his associates, and his profession.

1. In accordance with War Department Circular 281, dated 18 September 1946, it is recommended that the Army Commendation Ribbon be awarded to Major Jose A. Rivera, O-513618, Sanitary-Res on the following basis:

a. Award covers period from 21 June 47 to 18 September 47 and does not duplicate any other award.

b. Officer has not received any previous awards.

c. CITATION: During subject officer's period of service at this station he was assigned to the Research and Development Department for the purpose of working on a special research problem of a difficult and highly classified nature. His sincere and skilled efforts in handling this problem are worthy of the highest praise and the valuable contributions he has made toward the solution of the problem are worthy of official commendation.

2. It is desired that the recommended decoration be forwarded to the address shown below for presentation in the event of approval.

OFFICE OF THE COMMANDING OFFICER
TOKYO ARMY HOSPITAL
8059th ARMY UNIT, APO 1052

30 July 1954

To Whom It May Concern:

Major Jose A. Rivera, MSC, O-513618, was assigned to Tokyo Army Hospital on 12 June 1952 as Chief of the Laboratory Service and remained in that position until 17 October 1953 at which time he departed from the Far East for reassignment in the United States. During this time he impressed me as being extremely conscientious, dependable, cooperative, friendly and of good moral character. We found him to be energetic. He took active interest in all professional conferences and post activities and took advantage of every opportunity to improve himself professionally. At Tokyo Army Hospital he did considerable research work with the Chief of Medical Service in Parasitology, especially on Endamoeba Histolytica, devising new methods for the isolation and identification of this organism by special cultures and procedures. He took an active interest and contributed immeasurably in our teaching programs for the hospital staff and Japanese interns.

The following history I believe is essentially correct for the period prior to Major Rivera's assignment to this hospital: Right at the beginning of the Korean War, he was assigned as Chief of the Diagnostic Bacteriology Section of the 406th Medical General Laboratory, where he did a great deal of work on the bacteriology of war wounds and infections. When the first cases of Epidemic Hemorrhagic Fever appeared, he was sent to the First Medical Field Laboratory in Korea to take part in the preliminary studies on this disease. He was the Bacteriologist in this unit when it was stationed at Pusan; then at Taegu; and when it moved to its present location at the 121st Evacuation Hospital near Seoul. At this unit he also did a considerable amount of work in Enteric Bacteriology (Salmonella, Shigella, etc) on Chinese and North Korean prisoners of war. After nearly a year in Korea, he was transferred back to the 406th in Tokyo where he was assigned by Colonel Mason as Chief of the Tuberculosis Bacteriology Section. He remained there until he was transferred to Tokyo Army Hospital, assigned there by Colonel Mason as Chief of the Laboratory Service. This assignment was made on the basis of his past experience as Chief of the Laboratory Services at the 279th Army Hospital in Berlin, the 198th General Hospital in Paris and the Valley Forge Army Hospital in Pennsylvania.

Ciliated Epithelium and Ciliary Activity

JOSE A. RIVERA

This bibliographic review was carried out with the purpose of assisting those who would arrive at a clear understanding of the present state of knowledge of the activity of cilia and of the role these structures play in maintaining the normal physiology of the body, especially in the respiratory and genital systems. The widely scattered nature of the literature in this field, and the lack of recent reviews, are justification for an attempt to bring together in one place all the reference or work about cilia up to the present time.

This volume is intended to be a ready-made reference source for workers in the fields of biological sciences and medicine. It relates the diversity of manifestations through cilia and ciliated epithelium in health and disease and the effect of the physicochemical agent studied which influence the life and death of these structures. The survey includes an almost complete list of references in the literature on these topics consisting of 1,357 entries from the biological and medical literature in the field to the time of writing.

Dear Professor Rivera:

I have for some days had your book "Cilia, Ciliary Epithelium and Ciliary Activity" in my hands and it is a pleasure for me to congratulate you to an excellent piece of work. As a hand-book it is very valuable and it is the only quite modern one. Also from another point of view the book is very important. I think of the more and more actual problems of air pollution. We know that the reaction from the respiratory tract is very important and, therefore, I believe that knowledge of the ciliary reaction to different substances plays a great part in solving the medical problems of air pollution. I am sure that there will be several editions of your excellent book and if you wish me to, I can send you some reprints dealing with our investigations of different gases, tobacco smoke, and methodology concerning the ciliary reaction and activity.

I would be very pleased to hear from you.

Dear Dr. Rivera

I am currently reading your monograph on cilia and ciliary activity and must compliment you on the fine job of collecting and presenting the many data involved.

Our Atomic Energy Commission Program at Lovelace Foundation is directed toward studying the effects of inhaled mixed fission products in many species. We intend to make individual respiratory measurements before, during, and at intervals following exposure to the radioactive aerosols. It is logistically wise for us to use anesthetized and/or tranquilized animals for these measurements and the obvious question of effect of the drug upon respiratory pattern and function arises frequently. Because so little is known about these parameters, particularly in the small animals, we are embarking on an ancillary program to study the drugs in which we have a particular interest. As a part of this we feel that a great deal should also be learned about the effect upon ciliary activity, mainly because of its important role in lung clearance.

We would be very interested in learning from you of any team of investigators or institution which is currently engaged in studying ciliary activity. Our major interest is to learn what methodology would be most feasible and useful for our purposes. If you cannot assist us in this direction, we would appreciate your personal recommendation with regard to preferable methods to be used in such a study.

Your help in these matters would be most appreciated and we thank you in advance.

SUBJECT: Assignment of Major Jose A. Rivera, SnC, to Camp Detrick, and to the Coagent Branch, MV Division.

THROUGH: Chief, MV Division.

TO: Technical Director, Research and Development Dept.,
Camp Detrick.

1. Major Jose A. Rivera, SnC, who is at present on temporary duty and assigned to the Coagent Branch, MV Division, has made application for extending his tour of duty in the Army for an indefinite period.

2. It is recommended that the authorities at Camp Detrick request to have Major Rivera assigned to duty at Camp Detrick in the Coagent Branch during the period of his enlistment. The reasons for the recommendation are set forth herewith:

a. Major Rivera has a Master's degree in biochemistry and considerable practical experience in clinical pathology. In addition he has completed two years of medical school. For this reason he possesses a background of knowledge, particularly in anatomy and physiology, that would make an invaluable contribution to the work of the Coagent Branch. At the present time, it is unusual to find a person with such a varied background available for service at Camp Detrick.

b. The Coagent Branch is in part concerned with the study of physiological mechanisms, and anatomical structures that influence the susceptibility of the host to infection. Previous to the assignment of Major Rivera on temporary duty, no persons in the Coagent Branch were available who were skilled in this field of research, yet knowledge obtained by study of problems in this field are necessary and complementary to the biochemical and bacteriological problems being pursued by the Coagent Branch.

c. It is probable that Major Rivera can make his best contribution to the national defense by assignment at Camp Detrick where an opportunity exists to utilize to the fullest extent a rather unusual background of education and practical experience.

NOTICE OF MEETING

There will be a meeting of the Academy on December 3, 1959, at 8:00 P. M., in the Stone Room of the new University Center of Tulane University.

Dr. Jose A. Rivera, Associate Professor of Biochemistry at Loyola University, will present an interesting lecture, "Current Theories on Burn Therapy." His talk will be illustrated with color slides.

The University Center is located on McAlister Drive, adjacent to the Gymnasium, on the Tulane campus. The meeting will be open to the public, and all are cordially invited to attend.

We wish to report that the committee on Junior Academy in cooperation with the Louisiana Junior Academy, has recently concluded a series of Junior Scientist Seminars. They were financed by a grant from the National Science Foundation through the Louisiana Academy of Sciences. A total of 33 schools participated. 752 students registered for the seminars, and 500 students attended each Friday. This response was very gratifying, and the program was considered a great success.

TO WHOM IT MAY CONCERN:

It occurs to me that you might be interested in knowing of the service rendered by Major Jose A. Rivera while under my observation. He was Assistant Chief of the Laboratory Service for a period of one and one-half years in a 3,000 bed hospital.

During that time there were carried out many of the early steps in the use of penicillin and streptomycin. Many other progressive features were introduced into our Laboratory at that time. The Laboratory Service received many compliments for the forward-looking and progressive manner in which its heavy work assignment was carried out. A considerable part of the credit for this belongs to Major Rivera.

He is a brilliant bacteriologist and generally an able laboratory director. His immediate chief relied greatly on him and trusted many important projects entirely to his supervision. He is a man of complete integrity, both in his work and in his personal relations. He got along splendidly with co-workers, both superiors and subordinates, and his personal qualities are such as to make him a desirable member of any organization.

I am very happy, indeed, to have this opportunity to call Major Rivera's fine qualities to your attention, as he was a tower of strength to us during the time of his connection with the Laboratory at Halloran General Hospital.

October 29, 1948

Capt. Jose A. Rivera
Valley Forge General Hospital
Phoenixville, Pennsylvania

Dear Capt. Rivera:

Professor Leland W. Parr of George Washington Medical School has been kind enough to give us your name as a possible candidate for a position of Bacteriologist P-4 which we need to fill immediately in connection with our foot-and-mouth disease program in Mexico City, Mexico. The basic salary of this position is \$5232 per annum and in addition the incumbent would be entitled to quarters and cost of living allowances amounting to approximately \$1490 per annum if he does not have dependents at the foreign post and approximately \$2145 per annum if he has dependents residing at the foreign post.

This particular position deals with the bacteriological phases of the production of vaccine for use in the foot-and-mouth disease program.

We attempted to contact you by telephone at your Washington address and learned from Mrs. Rivera that you were now located at Phoenixville, Pennsylvania and also that you had signed up to remain with the Army for an additional year. Professor Parr, of course, did not know of your commitment to remain with the Army for another year at the time we discussed the matter with him as his last conversation with you was apparently several months ago.

We would very much appreciate knowing whether you are interested in this position and, if so, whether it is possible for you to obtain a prompt release from the Army in the event your appointment could be arranged. We are not familiar with the Army regulations, but undoubtedly you or your superior officer or perhaps the adjutant at the hospital will know whether your release from active duty by the Army is possible in the event you are interested in this position.

If you are not interested yourself or if your release from active military duty cannot be arranged, it would be considered a distinct favor if you could give us the names and addresses of other bacteriologists whom you think would be qualified and interested in this position at Mexico City.

We are enclosing Standard Form 57 in duplicate with the request that you execute and return it to us promptly if you are interested and available.

Very truly yours,

Robert B. Harris

Sir:

Mr. Jose A. Rivera, who is an applicant for a commission in the Sanitary Corps of the U. S. Army, has been personally known by me for the past six years. During this time, I have had opportunity of observing him closely and I can, without hesitation, vouch for his integrity and honesty. At all times, I have found him to be courteous and gentlemanly, and I am pleased to recommend him for your earnest consideration.

Yours truly,

Certificate of Achievement
is awarded to*

MAJOR JOSE A. RIVERA, O513618, MSC

For outstanding service as Chief of the Bacteriology Branch, Laboratory Division, U. S. Army Surgical Research Unit, Brooke Army Medical Center, during the period 1 April 1954 through 30 September 1957. Major Rivera's investigative efforts in this capacity resulted in significant contributions to our knowledge of infection, wound healing, and antibiotic therapy. His basic bacteriological studies on classification of *Micrococcus pyogenes* and *Pseudomonas aeruginosa* by bacteriophage and chromatographic techniques have contributed significant knowledge in these fields. His keen interest in the dissemination of knowledge as evidenced by his teaching and speaking activities has resulted in his recognition as an authority in his field. The high standards of excellence in the performance of his duties and his selfless, indefatigable devotion to duty will continue to serve as an inspiration to the U. S. Army Surgical Research Unit and reflect the highest credit upon the Unit, Brooke Army Medical Center, and the Army Medical Service, as well as upon himself, his associates, and his profession.

SUBJECT: Army Commendation Ribbon

TO: Commanding General
Headquarters, Second Army
Fort George G. Meade
Maryland

1. In accordance with War Department Circular 281, dated 18 September 1946, it is recommended that the Army Commendation Ribbon be awarded to Major Jose A. Rivera, O-513618, Sanitary-Res on the following basis:

a. Award covers period from 21 June 47 to 13 September 47 and does not duplicate any other award.

b. Officer has not received any previous awards.

c. CITATION: During subject officer's period of service at this station he was assigned to the Research and Development Department for the purpose of working on a special research problem of a difficult and highly classified nature. His sincere and skilled efforts in handling this problem are worthy of the highest praise and the valuable contributions he has made toward the solution of the problem are worthy of official commendation.

2. It is desired that the recommended decoration be forwarded to the address shown below for presentation in the event of approval.

Subj: Efficiency Report, in the case of LT.Colonel Jose A. RIVERA, MSC,
U.S.A.R. 0513618

Ref: (a) Paragraph 8G, ASR 600-185-1

1. The subject officer attended the course, Medical Military Training Program, at this command while on 14 days active training duty for the period 8 March 1959 to 22 March 1959. During this time this officer's interest and conduct was satisfactory in all respects.

2. The Medical Military Training Program consists of a week devoted to the Medical aspects of Special Weapons and Radioactive Isotopes, with the primary emphasis on basic concepts of nuclear medicine. The second week is a Medical Military Symposium aimed at informing reserve personnel concerning the reserve program and the activities of the medical department in general, presenting recent advances in military medicine, including aviation medicine, submarine and field medicine. A panel discussion of Army and Navy Reserve Medical Programs is included.

SECTION III - DESCRIPTION OF RATED OFFICER AND COMMENTS

Comments will reflect your appraisal of this officer and will emphasize strengths, weaknesses, behavior, personality, character or other qualities which distinguish this officer. Comment will be made as to officer's present physical ability to perform in time of war the duties required by his grade and branch.

14. RATING OFFICER
This officer is well-liked, affable and freely participates in unit activities as well as is very active in social and community activities. He is well-trained in his specialty, very industrious, has initiative and ability to carry-on on his own, and is very cooperative. His branch is well organized and efficient in its operations. He accomplishes his assigned mission in a superior manner. His principal weakness is an accent which makes his speech difficult to understand at times. He is physically qualified to perform the duties of his branch and grade in time of war.

15. INDORSING OFFICER ☐ I DO NOT KNOW THE RATED OFFICER WELL ENOUGH TO COMPLETE THIS REPORT.

This is an ambitious, friendly, industrious, cooperative, mature, intelligent, scholarly type of allied scientist. Well liked and easy to know, this officer greatly assisted in the entertainment and escorting of Spanish speaking visitors. He is meticulous in practice of his specialty, a most valuable asset in a bacteriologist. Conclusions as expressed in documents written by him were honest, sound, and factual.

15. DESCRIPTION OF OFFICER RATED AND COMMENTS (These paragraphs should cover physical, mental, moral qualities of rated officer, and any special strengths or weaknesses affecting his ability to do certain assignments not covered elsewhere in the report)

A. COMMENTS OF RATING OFFICER

This officer is a gregarious, well-liked individual, interested in both bacteriology and pathology. His temperament is volatile, and his performance varies in quality depending on his interest in the subject at hand. During his conduct of the TB laboratory, he showed a rapid rise in effectiveness of performance, from his initial effort, and brought the section up to a level of effectiveness that had been for some time lacking. It is felt that Maj. Rivera is a good laboratory officer, and that his aptitudes and interests lie principally within the scope of work conducted by a general hospital laboratory. His ability as a linguist is a real advantage to his organization in an overseas assignment.

B. COMMENTS OF INDORSING OFFICER ☐ I DO NOT KNOW THE RATED OFFICER BUT I HAVE CONFIDENCE IN THE RATER'S JUDGMENT
☐ I DO NOT KNOW THE RATED OFFICER VERY WELL BUT I HAVE CONFIDENCE IN THE RATER'S JUDGMENT

Major Rivera is a conscientious worker, well qualified in the field of bacteriology both from the standpoint of routine diagnostic procedures and research laboratory procedures. He has a tendency to over-extend himself and thus contract to perform jobs beyond his capacity. Other than this his judgment is good and he has great initiative. He is friendly, popular, and a capable officer who will do a good job in almost any type of clinical laboratory assignment.

A. COMMENTS OF RATING OFFICER

This officer is an extremely amiable, likeable individual who is interested in pathology as well as in bacteriology. In the bacteriology laboratory he is competent but somewhat erratic in performance, in that his initial enthusiasm requires guidance for efficient utilization of his efforts. His relationship with fellow officers and enlisted men is extremely cordial and he is well-liked. During his current assignment with this department he has shown increasing interest in study and advancement in bacteriology.

☐ I DO NOT KNOW THE RATED OFFICER VERY WELL BUT I HAVE CONFIDENCE IN THE RATER'S JUDGMENT

A competent bacteriologist and laboratory officer with certain limitations. The greatest of these is failure to recognize his own limitations. He is popular, pleasant, and is generally a valuable officer.

A. COMMENTS OF RATING OFFICER

This officer is a well trained bacteriologist and has performed his duties very well. His knowledge of his field indicates he is well-read and very interested in his work. He has difficulty at times, however, in making himself clearly understood, which is at least partly due to language difficulties (he is of Spanish extraction). His ideas are not always clearly thought out before presentation. His adjustment to this assignment has been excellent, in view of the fact that he had been looking forward to having his family with him in Japan. He has shown ability in the proper utilization of manpower.

A. COMMENTS OF RATING OFFICER The officer is an extroverted, ebullient individual, socially very adaptable, and one who cheerfully undertakes a wide variety of duties. He is relatively familiar with the field of medicine, especially in tissue pathology, although his professional interest in his field of specialization, (i.e., bacteriology) seems at times to be somewhat limited. He is relatively competent in direction of a section, but does not in all cases exercise close supervision or a high degree of discretion in evaluating the performance of subordinates. The officer being rated is extremely compatible with a wide variety of technician personnel, and the atmosphere in his section is congenial. However, in details of technique in which differentiation is important in establishing a high level of work quality, he tends to have only a moderate degree of perception. He is capable of carrying out instructions well, provided they are thoroughly understood. However, he is not an individual who (see attached sheet #1 incl)

COMMENTS OF INDORSING OFFICER ☐ I DO NOT KNOW THE RATED OFFICER BUT I HAVE CONFIDENCE IN THE RATER'S JUDGMENT
☐ I DO NOT KNOW THE RATED OFFICER VERY WELL BUT I HAVE CONFIDENCE IN THE RATER'S JUDGMENT

This report has been discussed with the rating officer. I have confidence in his judgment and concur in his opinion. I am aware of the rated officer's deficiencies having been discussed with him. It is felt that in an assignment to a station hospital laboratory, or to a general hospital laboratory under supervision, the rated officer would technically perform and supervise routine clinical laboratory work in a highly creditable manner. It is felt his future assignments should be made accordingly. This recommendation is no reflection of his willingness, conscientiousness, and desire to please.

Subj: Officer Efficiency Report, Capt Jose A. Rivera, O 513 618, dtd 8 Oct 51
cont'd.

Par 13: conducted studies on techniques of rapid anaerobe identification and made extensive attempts to recover leptospira from suspected human cases by animal inoculation. Additional duties included management of diagnostic technique training program for officers and enlisted men, and conducting of training program for department.

par 15a. is particularly adept at conducting research studies, since he tends to deviate from protocol to a marked extent. His energies are particularly well employed in conducting a diagnostic and clinical laboratory.

A. COMMENTS OF RATING OFFICER

A willing and conscientious officer; is well liked by subordinates and has displayed talent for managing difficult personnel situations. Performs satisfactorily in present assignment under close supervision but lacks adequate training and the interest in bacteriology necessary to become highly qualified. His background and interests, along with the experience gained in current assignment, should qualify him to perform the duties of a Clinical Laboratory Officer (3314) in an excellent manner.

INSTRUCTIONS
(SEE AR 600-185)

1. Efficiency ratings comprise an evaluation of an officer in comparison with others of the same grade. In a large group of officers, such as are normally assigned to an infantry division, the law of averages will establish that about twenty percent of the officers of each grade may be superior; about twenty percent may be in the two lower classifications of very satisfactory and satisfactory (Unsatisfactory officers should be identified promptly and reclassified); the remaining sixty per cent who constitute the mass of thoroughly capable officers would fall into the excellent category. Commanders of regiments and large units must analyze the reports prepared within their organization and whenever the distribution varies markedly from the above, the reasons must be sought. It is highly important that officers who are genuinely superior be identified by their ratings so that their talents may be fully utilized. It is also important to identify those officers whose qualifications and standards of performance of duty are above the minimum required, but who are clearly below the standard established by the mass of officers of their grade. A series of reports of an individual officer should present a highly accurate evaluation of his worth.

2. Prior to filling in Section C of this report consider carefully the following definitions and the numerical values assigned to each. Keep them in mind when rating, taking into consideration the length of service of officer you are rating and the opportunities afforded him, which might have a bearing upon his performance of duty, personal characteristics, or professional qualifications.

Unsatisfactory: Performance of the particular duty reported upon or personal characteristics or professional qualifications below minimum standards—inefficient.

Satisfactory: Performance of the particular duty reported upon or personal characteristics or professional qualifications up to minimum standard—passably efficient.

Very Satisfactory: Performance of the particular duty reported upon in an efficient manner. Personal characteristics, professional qualifications, or efficiency above that acceptable as satisfactory.

Excellent: Performance of the particular duty reported upon in a very efficient manner. Personal characteristics, professional qualifications, or efficiency above very satisfactory but below superior.

Superior: Outstanding and exceptional performance of the particular duty reported upon. Personal characteristics, professional qualifications, or efficiency above that considered excellent.

Unknown: To be used in all cases in which the reporting officer has had insufficient opportunity during the period covered by this report to observe the officer reported upon to permit a rating as to the performance of the particular duty, personal characteristics, or professional qualifications.

Dear Colonel Rivera:

Reference is made to letter, Office of the Commanding General, this headquarters, dated 22 January 1965.

Your records indicate that you have attained the maximum age for your grade for retention in an active status on 6 February 1965. Accordingly, your removal from an active status effective 28 February 1965 is mandatory.

Your records indicate that you are eligible for transfer to the Retired Reserve for reasons reflected on attached information sheet, or discharge from your reserve commission, whichever you elect. Election of either option will not affect your eligibility for retirement benefits at age 60, inasmuch as you have completed more than 20 years of satisfactory Federal service.

It is requested that you indicate your desire on the inclosed application form and return it to this headquarters no later than the suspense date indicated above.

Sincerely yours,

Dear Colonel Rivera:

You have attained the maximum age for your grade, necessitating your release from an active status as a Reserve officer of the Army, as required by law. I take this opportunity to express appreciation on behalf of the United States Army for your devoted service and the important contribution you have made to the Army and to our country.

The Army is fully cognizant and most appreciative of your long and dedicated service. It is hoped that, while in your retired status, you will continue your interest in and association with the United States Army in the furtherance of its missions.

In the near future you will receive appropriate forms and instructions for completing the administrative action required for your retirement or discharge.

Best wishes for your future happiness and success.

SUBJECT: Request for Copies of Orders

TO: Commanding General
XXI United States Army Corps
ATTN: AIXXI-AARO
Indiantown Gap Military Reservation
Annville, Pennsylvania 17003

1. Letter, AIXXI-AARO, your headquarters, 1 February 1965, addressed to Colonel JOSE A. RIVERA, O 513 618, MSC (USAR), indicated that Colonel Rivera would be removed mandatorily from an active status in the USAR effective 28 February 1965 due to attainment of maximum age for his grade.

2. Colonel Rivera states that some time ago he received orders assigning him to US Army Control Group (Ret). This unit has not received copies of such orders.

3. If colonel Rivera has been relieved from assignment to this unit and reassigned to Retired Control Group, request copies of orders directing the reassignment so that subject officer can be dropped from unit rolls.

REC'D JUL 6 1964
DATE: 10 March 1964

Medical Statement No. 1

I now consider myself sound and well and physically able to perform military duty. I was considered physically qualified for military service at the time of accomplishment of my last physical examination on or about 15 October 1963 at Walter Reed Army Hospital. To the best of my knowledge and belief, I have no physical defects or conditions, except as noted below, which would preclude the performance of military duty.

6 March 1963

1. Review of officers military record reveals he completed 28 total years service on 6 February 1958 (based on the period of time by which his age exceeds 25).

2. Officer should complete 20 years satisfactory Federal service on 4 March 1963, providing he is credited with at least 34 retirement points (this includes 10 points awarded for membership), and should be removed from active status 5 March 1963. Notwithstanding the foregoing, officer's removal from active status is being held in abeyance because he is being considered for promotion. You will be advised as soon as results of the promotion consideration are received.

Lt Col Jose Albert Rivera

New Orleans 18, Louisiana

Dear Colonel Rivera:

It is with regret to note from your records that you attained the age of 55 years, 6 February 1960. This is the maximum age prescribed for your grade for retention in an active status of the United States Army Reserve. Therefore, it will be necessary for you to request a waiver to remain in an active status until completion of 20 years of satisfactory service, or to request transfer to the Retired Reserve.

After extensive study by the Department of the Army and in coordination with Reserve component associations, the attrition criteria prescribed in AR 140-160 were adopted as necessary in the best interest of a vitalized Reserve.

Retention in an active status may be authorized for those Reservists who have completed 10 or more years but less than 20 years of service creditable for retirement under Title 10, United States Code, Sections 1331 - 1337, and those Reservists who were in an active status 1 July 1955 and have remained active since that date. As you have completed less than 20 years satisfactory service and can complete such service before reaching 60 years of age, you qualify for a waiver.

You may request a waiver and be retained in an active status until you complete 20 years of satisfactory service or reach age 60, whichever is earlier. You are also eligible for transfer to the Retired Reserve if you so desire. It is requested that you indicate your choice on the inclosed application form and return to this headquarters not later than 28 February.

SUBJECT: Request Waiver to Remain in Active Status, ~~or Transfer to Retired Reserve~~

TO: Commanding General
XIX U. S. Army Corps
Fort Chaffee, Arkansas
ATTN: AGR-0

☒ 1. In accordance with information contained in letter, XIX U. S. Army Corps, dated FEB 16 1960, I desire to request a waiver to remain in an active status until completion of 20 years of satisfactory service, or until I reach age 60, whichever is earlier. I understand that I must earn a minimum of 50 points for each retirement year subsequent to the granting of this waiver. Failure to earn 50 retirement points in any retirement year will be cause for removal from an active status.

☐ 2. I desire transfer to the Retired Reserve. I understand that transfer to Retired Reserve does not automatically entitle me to pay, allowances, or other benefits unless otherwise entitled to by law, and that 20 years of service does not qualify me for retirement benefits unless such service is qualifying service in accordance with current regulations.

Ref: (a) Paragraph 8G, ASR 600-185-1

1. The subject officer attended the course, Medical Military Training Program, at this command while on 14 days active training duty for the period 8 March 1959 to 22 March 1959. During this time this officer's interest and conduct was satisfactory in all respects.

2. The Medical Military Training Program consists of a week devoted to the Medical aspects of Special Weapons and Radioactive Isotopes, with the primary emphasis on basic concepts of nuclear medicine. The second week is a Medical Military Symposium aimed at informing reserve personnel concerning the reserve program and the activities of the medical department in general, presenting recent advances in military medicine, including aviation medicine, submarine and field medicine. A panel discussion of Army and Navy Reserve Medical Programs is included.

SUBJECT: Extension of Service

THRU: Commanding General
Brooke Army Medical Center
Fort Sam Houston, Texas

TO: Major Jose A. Rivera
Brooke Army Medical Center
Fort Sam Houston, Texas

1. Reference your application for retention on active duty in the Army of the United States.
2. Department of the Army records indicate you will reach age 55 on 6 February 1960 at which time you will have less than 20 years active Federal service. In order to be eligible for retention on active duty under current policy, an officer must be able to qualify for retirement in accordance with the provisions of paragraph 6a, AR 635-130 (twenty years active Federal service, ten of which must be served as a commissioned officer) by the time he attains the maximum age for his grade as indicated in AR 135-215. Unfortunately you will not be able to meet this requirement, therefore your application for further active duty under the provisions of AR 135-215 cannot be favorably considered.
3. In establishing the policy that an officer would be released from active duty unless he could qualify for retirement as indicated above, the Department of the Army considered it far more fair to the individual to release him as soon as his inability to qualify is determined rather than delay release until a later date. Thus he would be better able to reestablish himself in civilian life as soon as possible and at an earlier age. In view of the above, provisions were included in Section XIII, AR 135-173 for early release of officers whose request for further active duty is denied. However, since voluntary release from active duty precludes payment of lump sum readjustment pay under the provisions of Public Law 676, 84th Congress (DA Bulletin 8, 1956), you will not be released prior to expiration of your current category as a result of denial of further active duty unless you request such release.
4. Your loyal service to the Army over the past years is sincerely appreciated and it is regretted that circumstances are such as to preclude your retention on active duty.

By Order of Wilber M. Brucker, Secretary of the Army:

D. A. Brucker

WAR DEPARTMENT
Services of Supply
OFFICE OF THE SURGEON GENERAL
WASHINGTON

October 8, 1942

SUBJECT: Application of Mr. Jose Albert Rivera for commission as 1st Lieutenant in the Sanitary Corps, Army of the United States.

TO : The Adjutant General

1. Pursuant to the instructions of The Secretary of War contained in letter from The Adjutant General dated July 13, 1942, subject: "Relief of Medical Corps Officers from duties which do not require professional medical training", suitable non-medical officers must be procured for assignments to positions which do not demand full medical training.
2. As a part of this replacement program, and under provisions of AR 605-10, it is recommended that Mr. Jose Albert Rivera be appointed 1st Lieutenant, Sanitary Corps, AUS, for assignment to duty as biochemist; a position which otherwise must be filled by a medical officer.
3. Mr. Rivera is a 37 year old applicant who received his B.S. degree in 1935 from St. John's University in Brooklyn. He has spent 3 years at Georgetown University in graduate work toward a Masters degree. He spent 7 - 8 years as a clinical laboratory technician before receipt of his B.S. degree and two years immediately afterward. He is recommended for a commission of 1st Lieutenant, Sanitary Corps, Army of the United States.
4. The applicant has passed his 37th birthday and has been placed in III-A classification by his Selective Service Board.
5. There is no appropriate Officer Candidate School in which he may be qualified for commission in the AUS for duty with the Sanitary Corps.
6. Mr. Jose Albert Rivera is considered to possess outstanding qualifications appropriate to the contemplated assignment. Neither Reserve nor AUS Officers are available for this assignment. His appointment is within the authorized procurement for officers of this category. Since medical officers must be replaced as rapidly as substitutes may be procured, the appointment of Mr. Jose Albert Rivera is considered both critical and urgent.

Applicant: Name— RIVERA, Jose Albert 2/4/43 For appointment in the Army of the
United States.

Address— 1736 Columbia Road, N.W., Washington, D.C.

Job Title Bacteriologist Grade Recommended First Lieutenant

Complete Description of Job— Bacteriologist and Serologist in Hospital or other Medical Department Laboratory.

Position requires knowledge of medical bacteriology, including methods of isolation of pathogenic bacteria and their identification; and of routine sanitary bacteriologic analyses of water and milk. Typical duties are the recognition of paratyphoid or dysentery bacilli from feces, of streptococci in blood or throat cultures, of gonococci in urethral smears, of tubercle bacilli in sputum or spinal fluid, etc.; and the performance of bacterial counts on milk, of tests for E. coli in water, etc.; and of serologic tests for the detection of syphilis, undulant fever, paratyphoid fevers, etc. Depending upon the station assignment, an officer may be called upon to do all or any of the duties noted above.

Each bacteriologist commissioned in the Sanitary Corps, Army of the United States, fills a position which would otherwise require a Medical Corps officer. Hence the need for Sanitary Corps officers is urgent and critical.

REQUEST: This applicant is being considered for recommendation for the grade indicated above. Pursuant to Memorandum No. 1, Officer Procurement Service, dated November 5, 1942, please obtain the necessary papers listed under Part III, paragraph (b), i through xiii. (See reverse side.)

INTERVIEWERS REMARKS

Do you recommend applicant for appointment? Yes.

If so - Grade 1st Lt. Branch or Branches The Surgeon General's Office, Bacteriologist.

Remarks as to qualifications

This candidate is a high type man, quiet, soft-spoken, short of stature and with a large head. He is self-assured and intelligent. He is a research type, careful, meticulous and persistent. He is very neat in his appearance.

He has an excellent education and a good work history which makes him conversant with all of the techniques specifically mentioned on OPS-2, attached. He appears qualified to undertake these duties.

After investigation he has been passed by F. B. I. as indicated by an attached memorandum.

I recommend this candidate as excellent.
